

Motion Detector

Quick Start Guide

In-app Setup

1. Make sure your Ring Alarm is disarmed.
2. In the Ring app, tap **Set Up a Device** and find the **Motion Detector** in the **Security Devices** menu.
3. Follow the in-app instructions to complete setup.

Installation

1. Install the Motion Detector on a wall or in a corner about 7.5 ft. (228.6 cm) above the floor.
2. Clean the area before you attach the Motion Detector.

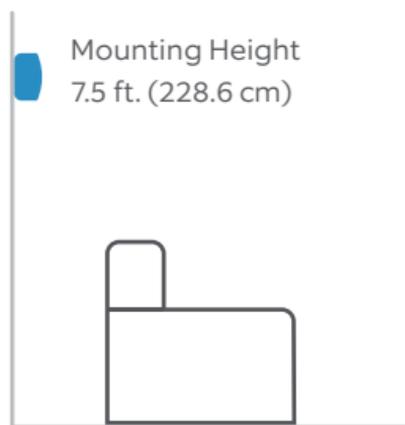

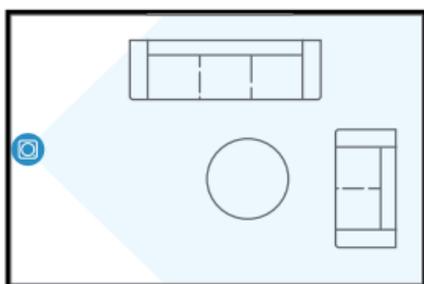

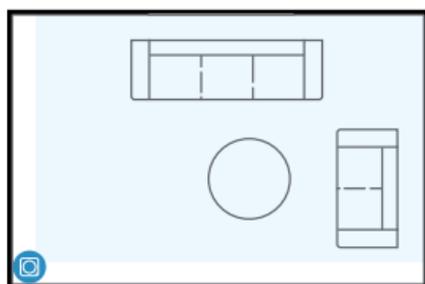

Avoid false alarms by making sure you don't aim the Motion Detector at heat sources, like a fireplace or sunny window, and that your pets can't get close to it by climbing on furniture.
