

Homeowner's Guide for Lennar Communities Connected by Ring

Smart Home Device Setup & Installation Guide

LENNAR
COMMUNITIES
CONNECTED BY
RING

BEFORE YOU BEGIN

Use this guide to set up the products included in your Lennar Communities Connected by Ring program. Electrical power and broadband internet access are required.

→ Download the Ring app from the App Store or Google Play. Create or sign in to your Ring account before setting up any device.

1 Ring Battery Doorbell Plus (2nd Gen)

To set up your Battery Doorbell Plus (2nd Gen), first fully charge the rechargeable, quick-release battery pack using the included USB-C charging cable. Once charged, insert the battery into your doorbell.

Remove the doorbell's faceplate by inserting the removal tool into the slot at the bottom of your doorbell. Once the faceplate is removed, press and hold the setup button on the front of the device for 20 seconds. A spinning white light on the front of the doorbell indicates that it is now in Setup Mode.

Next, open the Ring app and select Set Up a Device to get started with step-by-step installation instructions. For more installation help, refer to the user guide in the box.

NOTE

Before mounting, ensure the battery is fully charged using the included USB-C charging cable. A full charge takes approximately 4–6 hours. If you have 2 Ring Doorbells, set them both up using the same steps. You can also set them up using the same Ring account, or using two different Ring accounts, depending on your preference.

Ring Battery Doorbell Plus (2nd Gen)

2 Honeywell Home T6 or T10 Pro Smart Thermostat

Your thermostat comes with two manuals. Use the User Guide to set up your thermostat.

Honeywell T6 Pro

Honeywell T10 Pro

To add your thermostat to the Ring app:

- 1 Open the Ring app and tap the menu
- 2 Tap Set Up Device
- 3 Scroll down and tap Thermostats
- 4 If asked how you'd like to connect, select WiFi, then tap Begin Setup
- 5 Follow the steps to link your Amazon and Ring accounts
- 6 Follow the steps to link your Amazon and Honeywell Home accounts

A new tile will appear on your Ring app dashboard that links to the Honeywell Home app, where you can monitor and manage your thermostat.

Honeywell Home T6 / T10 Pro

3 Schlage Encode™ Smart WiFi Deadbolt

Download the Schlage Home app and follow the in-app instructions to set up your deadbolt.

To add your deadbolt to the Ring app:

- 1 Open the Ring app and select Set Up a Device
- 2 Select Locks and Access Control
- 3 Select Schlage Home
- 4 Follow the steps to connect your Schlage Home and Ring accounts

A new shortcut tile will appear on your Ring app dashboard. Tap the tile to lock and unlock your deadbolt, and manage access and settings.
